ICE CUBE MACHINES

A close-up photograph of a bartender's hands pouring water from a metal jigger into a tall glass. The glass is filled with ice cubes and a vibrant blue liquid. The bartender is wearing a brown apron over a dark shirt. The background is dark and out of focus. The text "LET'S REDEFINE ICE" is overlaid in white, bold, sans-serif font, with a reflection effect below it.

**LET'S
REDEFINE ICE**

With a legacy of 33 years dedicated to innovation and excellence in ice machine technology, Ice-boy proudly introduces globally patented ice machines. Crafted with precision and pride in India, our machines are trusted worldwide for their quality and innovation.

Ice-boy

A close-up, high-angle view of the interior of an ice-making machine. The image shows the complex mechanical components, including copper-colored coils and white plastic structures, which are part of the centrifugal technology. The lighting is dramatic, highlighting the metallic surfaces against a dark background.

ICE-BOY'S PATENTED CENTRIFUGAL TECHNOLOGY

**SINCE 1990
FOR OVER 33 YEARS**

A cutting-edge technology that delivers crystal clear ice in all shapes without the use of nozzles, gear motors or pumps. This cutting-edge system delivers ice machines that are state-of-the-art and pinnacle of reliability, robustness, and hassle-free maintenance in the ice-making market.

Ice-boy

WORLD'S FIRST AND ONLY VERTICAL EVAPORATOR SYSTEM FOR BULLET ICE

Introducing the groundbreaking Patented Vertical Evaporator system, a global innovation crafting versatile, crystal-clear bullet ice effortlessly. This pioneering system requires no gear motors, paddles, or moving parts, ensuring unparalleled ease of maintenance and versatility.

INNOVATIVE ICE MACHINE TECHNOLOGIES: POWERING YOUR CHILL

Our ice machines feature a comprehensive Touch Screen Display, allowing users to effortlessly adjust ice cube size and weight at the touch of a button. Uniquely, our machines empower users to control water drainage directly from the Touch Panel, effectively reducing water wastage. The intuitive Touch Panel provides real-time insights into the machine's status, displaying the current cycle,

ice-making duration, evaporator temperature, storage capacity indications like full or lack of water, and more. Moreover, the Auto Start and Auto Stop functions enable users to schedule machine operation up to 12 hours in advance. In the event of water shortage, high pressure, or similar issues, the machine halts automatically for added safety and convenience.

EXPERIENCE THE FUTURE

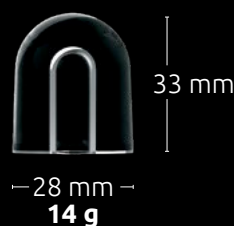

Groundbreaking ice
machines, setting new
standards in innovation.

BULLET SHAPE ICE MACHINES

Discover our Mini Bullet Ice, tailor-made for cafes and restaurants. These petite ice cubes resemble sparkling crystal gems, adding a touch of elegance to any glass.

Embrace our Medium Bullet ice, a favored choice among cafes, restaurants, and bars due to its distinctive shape and rapid cooling capabilities and crystal-clear clarity.

Model: BVS-60

Production: 30 Kgs/Day

Storage: 8 Kgs

KW: 0.22 KW

Dimensions:

H620 x W450 x D500 (mm)

Model: BVM-130

Production: 60 Kgs/Day

Storage: 25 Kgs

KW: 0.37 KW

Dimensions:

H815 x W600 x D600 (mm)

Model: BVM-210

Production: 95 Kgs/Day

Storage: 26 Kgs

KW: 0.38 KW

Dimensions:

H850 x W675 x D600 (mm)

• Daily production is based at 10°C Air & 10°C Water) • Production at 32°C Air & 25°C Water is approx. 30% Less. Recommended area of use 10°C thru 38°C ambient temperature.
• Design / Specification subject to change without notice. Dimensions (height) with legs.

BULLET SHAPE ICE MACHINES

Our most popular Bullet Ice made with Patented Centrifugal Technology, ideal for upscale hotels, bars, restaurants, and packaged ice needs. This ice shape not only adds a touch of sophistication but also rapidly cools your beverages for an unparalleled drinking experience until the last sip.
